

Dear

---

The organizing committee invites you to take part in the international scientific conference dedicated to the problems of energy – saving in agroindustrial complex. It will take place on 14 – 15 of October, 2010 in Kiev.

### THE PURPOSE OF CONFERENCE

- Scientific and technical exchange of information between scientists and engineers in the field of theory and practise of energy- and resources-saving of energy supply in agroindustrial complex.
- Discussion of the most effective ways of realization of the perspective elaborations carried out in Ukraine and abroad.
- Preparation of recommendations for holding energy – saving measures in agribusiness.

### PLACE OF CARRYING OUT OF CONFERENCE

National university of life and environmental science of Ukraine  
(NULES of Ukraine, Geroev Oboronu street, 11, conference room of educational block №11, Kiev 03041).

### MAIN SECTIONS OF THE CONFERENCE:

1. Heating and electrical technologies in agroindustrial complex.
2. Modern energy – saving biotechnologies.
3. Nonconventional and renewable energy sources. Energy – saving and problems of ecology.
4. Optimization in energy - saving.

5. Modern means of technical diagnostics of energy systems.

### LANGUAGES OF CONFERENCE:

Ukrainian, Russian, English

*Plenary reports are provided with translation.*

### REQUIREMENTS FOR REPORTS THESES

Theses of the reports will be published in the professional magazine in three languages: Ukrainian, Russian, English.
