Description of the learning outcomes¹:

Knowledge (knows and understands...)²

The Project Participant knows the objectives of the European University Initiative as well as identifies the composition and scope of the UNiGreen Alliance. The Project Participant is able to distinguish the UNiGreen working packages, and in particular is familiar with the objectives and tasks of the working package 9 – Dissemination, Exploitation and Sustainability. The Project Participant acquired knowledge on solutions applied by SGGW in relation to the UNiGreen Alliance, specifically in terms of project management, work organisation and expected project results. The Project Participant recognises Open Science, SciVal tool as well as potential research opportunities within the Horizon Europe Program in the field of Cluster 6 Food, Bioeconomy, Natural Resources, Agriculture and Environment. The project Participant better understands her research profile.

Skills (can...)³

The Project Participant is able to independently search for funding opportunities in research cooperation with EU partner universities. The Project Participant is able to use the Open Science sources and SciVal tool. The Project Participant has sufficient skills to search and process information as well as to organise her own work. The Project Participant carries out identification of opportunities and threats in implementation of joint research projects as well as prepares a map of research connections. The Project Participant links her sending institution with SGGW in the field of UNiGreen Dissemination, Exploitation and Sustainability/

Social competence (is ready to...)⁴

The Project Participant is eager to establish cooperation with UNiGreen Alliance and to actively engage in it. The Project Participant is better prepared to work in an international environment of the EU. The Project Participant is open to use foreign language in a daily communication, including specialist vocabulary. The Project Participant strives toward excellence by building an international team.

¹ The learning outcome is what the Project Participant knows, understands and can do as a result of learning, expressed in terms of knowledge, skills and social competence or professional activity.
² Knowledge – a collection of descriptions of objects and facts, principles, theories and practices acquired in the learning process and relating to the field of learning or professional activity.
³ Skills – the ability, assimilated in the learning process, to perform tasks and solve problems specific to the field of learning or professional activity.
