INTERNATIONAL MSC PROGRAMS
Taught in English

The Hebrew University of Jerusalem provides international M.Sc. programs taught in English at its Rehovot campus, the Robert H. Smith Faculty of Agriculture, Food & Environment.

M.Sc. programs are held over 12 months, including intensive coursework and a research exercise. An approach that combines both theoretical scientific concepts and practical applications provides students with strategies they can adapt to local conditions on their return home. Academic studies are supplemented by field trips, sightseeing tours and social events, to create a unique and stimulating experience.

Admission is now open for the following programs commencing in October 2013:

**M.Sc. in Nutritional Sciences**
The M.Sc. study program in nutrition is aimed at preparing students to become international leaders in the field of nutrition. Students are taught the fundamentals of nutrition based on the most recent scientific findings. Graduates are able to apply their newly obtained knowledge to local nutritional challenges in their home countries. The program will also prepare students for participation in doctoral level programs.

**M.Sc. in Animal Sciences**
This newly-evolving program focuses on poultry, fish and ruminants, exposing students to experts of international renown in their fields. Both general subjects, such as animal physiology, reproduction, endocrinology, food and feeds, and specialized topics, such as physiology of avian senses, microbial ecology of aquaculture systems and immunology, are covered.

**Requirements for admission:**
- B.Sc. degree in a relevant field from a recognized university, with an average grade of at least 75 (B on the American scale)
- High level of proficiency in all English skills (at least 89 on the internet based TOEFL scale or documentation of previous academic studies conducted in English)

*Outstanding students will have the option of continuing studies for a second year, transferring to the M.Sc. thesis stream.*
WORLD WIDE STUDIES SCHOLARSHIPS FOR UKRAINIAN STUDENTS

The Victor Pinchuk Foundation is offering partial scholarships for Ukrainian students up to the age of 35, for a one or two year master's degree at the Robert H. Smith Faculty of Agriculture, Food & Environment. The Foundation will provide a grant covering not more than 60% of the overall cost for tuition, accommodation and living.

Applicants must demonstrate excellence, leadership and a commitment to return to the Ukraine to work for at least five years. They must also have been accepted by the Hebrew University.

Students may apply online from December until May 15 each year. For further information please visit World Wide Studies for Ukraine Website.

Important Note: The British Friends of the Hebrew University will extend an additional award to one qualifying candidate to cover all or part of maintenance costs in Israel (at the standard rate set by the Hebrew University, which shall not be less than the minimum required by the appropriate University body).

Application Procedure:
1. Independently apply to the Division for International Studies in Agriculture, Food & Environment and complete all the admissions procedures (between September and May each year).
2. Submit a scholarship application to the Victor Pinchuk Foundation (between December and May 15 each year) www.worldwidestudies.org
3. Prospective students will be invited to an interview at the Victor Pinchuk Foundation (between May and June each year).
4. Students accepted for the scholarships awards will be asked to sign an agreement with the Victor Pinchuk Foundation.
