Abstract

An abstract summarizes the content and original contribution of work and includes 100-150 words. An article should be thematically related to one of sections of the Conference. The article is to refer to actual knowledge and should contain appropriate references.

Key words: key word 1, key word 2, key word 3

JEL codes: find on: http://www.aeaweb.org/journal/jel_class_system.html

1. Introduction

This file is to be used as a template. If requirements for the paper change at the moment of publication the author should make correction to bring it in line with the actual template of the editorial office. The article is to have 1.5 line spacing, text font Times New Roman of 12 pt. The article cannot exceed 12 pages with drawings, tables and references. Margins: Top 2,5 cm, Right 2,5 cm, Bottom 2,5 cm, Left 2,5 cm. The file is to be sent as follows – Name_Surname of the first author as a file title. Complete bibliographic references for all citations are mandatory.

2. Theoretical background

References are to be prepared according to Harvard referencing style (e.g. Smith R., 1990) with a list of all publications in alphabetical order in the end of the article. If the article has more than 3 authors it is required to give the name of the first author and add “et al.”. If the

publication is issued by institution or has no author, the name of the institution or title and year of publication should be included (e.g. European Agency, 2004).

3. Materials and Research Methods

In this part the source of data as well as methods of research used by author(s) should be presented.

4. Results and Discussion

This part included text, tables, drawings, formulae, references to data sources, data analysis. The article is to be prepared in A4 format (210 × 297 mm). Number of pages should not be included and will be added later. The work cannot exceed 12 pages with drawings, tables and literature. Tables should be centred and numbered. The title and number is to be placed above the table. Drawings should be centred and numbered, and titles and numbers are to be placed under them. Drawings are to be prepared in black and white without background shading. References should be placed under all tables and drawings.

5. Summary

In this place the content of the article is to be summarized and original contribution of author(s) is to be highlighted.

6. Sources of data

This section is applicable to authors who used grant funding for preparation of the paper: give NAME AND NUMBER OF RESEARCH PROJECT.
