

Joseph Domitrovich

Joseph Domitrovich, USDA Forest Service National Technology and Development Program

Dr. Joe Domitrovich is an exercise physiologist for the Forest Service National Technology and Development Program based in Missoula, MT. He started with the Forest Service in 2007.

Joe is an exercise physiologist and a wildland firefighter when he can get away from his computer. He completed his Ph.D. at the University of Montana, Missoula in Interdisciplinary Studies with an emphasis in exercise physiology. He received his Master's also at the University of Montana, and his Bachelors' at Cal Poly San Luis Obispo in California.

Joe's work at the Missoula Technology and Development Center (MTDC) includes hydration, nutrition, health effects of smoke, heat related illnesses, stress and fitness. He is an advisor to the National Wildfire Coordinating Group (NWCG) Risk Management Committee, chair of the Risk Management Committee Task Group on Smoke Exposure, and Forest Service representative to the National Fire Protection Agency (NFPA) committee on Respiratory Protection. I teach wildland fire training courses at the local and national level.
