## BACKGROUND AND EXPERIENCE

The **National University of Life and Environmental Sciences of Ukraine (NUBiP)** is one of Ukraine's leading educational and research institutions, specializing in agriculture, environmental and life sciences. NUBiP has IV accreditation level and conducts educational, scientific and research activities related to environmental issues and agriculture.

Having a wide range of faculties the University can fully undertake the following directions:

- environmental sciences (forestry, balanced development of terrestrial and aquatic ecosystems, environmental agro- and biotechnologies, energy-saving technologies, environmental management in rural areas, land management, plant protection etc.)
- IT and engineering sciences (engineering, energetics, mechanics, automation, IT and programming, etc.);
- stockbreeding and veterinary
- liberal studies (continuing education, pedagogy, law, economics)
- food technologies

More than 2,600 academic staff, including about 300 professors and doctors of sciences, more than 1,000 assistant professors and PhDs, provide educational process and scientific research at the University. The University provides bachelor's degree programmes in 47 specialties and master's degree programmes in 42 specialties.

NUBiP actively engages in international activities through partnerships with universities, research institutions, and organizations worldwide. Among partner universities of NUBiP there are: University of Hohenheim (Germany), Warsaw University of Life Sciences (Poland), Czech University of Life Sciences (Czech Republic), Iowa State University (USA), Ghent University (Belgium), International Institute for Applied Systems Analysis (Austria), University of Guelph (Canada).

NUBiP's global outreach includes academic exchange programs, joint research projects, dual-degree programs, and international grants. The University actively participates in the following programmes: Erasmus+, Horizon, TEMPUS, FP7-Marie Curie Actions, Visegrad Fund, Erasmus Mundus - Action 2 (ALRAKIS 2), TOPAS, DAAD Projects, NATO SPS Programme "Science for Peace and Security".

NUBiP maintains strong collaborations with numerous international organizations, universities, and research institutions, focusing on agricultural development, environmental sustainability, food security, and technological innovation. NUBiP partners with the following organizations: Food and Agriculture Organization of the United Nations (UN FAO); Global Confederation of Higher Education Associations for Agricultural and Life Sciences (GCHERA); United Nations Educational, Scientific and Cultural Organization (UNESCO); EUROSCIENCE; The European Association of Veterinary Anatomists (EAVA); International Society of Automation (ISA); Network of International Relations Officers in Life Science Universities in Europe (IROICA); Federation of Veterinarians of Europe (FVE); World Association of Veterinary Anatomists (WAVA); International Union of Forest Research Organizations (IUFRO); The Pesticide Stewardship Alliance; SAE International; MBA in Agribusiness (AGRIMBA); Amitié sans Frontières, Visegrad University Association (VUA); Network of Aquaculture Centres in Central and Eastern Europe (NACEE); European Forestry Institute (EFI); International Atomic Energy Agency (IAEA); European University Association (EUA).

The University's mission is to create, accumulate, systematize, store, and disseminate modern scientific knowledge to enhance the quality of nowadays life. With the help of its cutting-edge programs designed to meet international requirements, internships and research projects with leading companies and organizations NUBiP aims to prepare highly skilled specialists who meet European and global standards for intellectual and personal development. NUBiP of Ukraine pursues its mission through key areas of development, including international collaboration, education, social engagement, research, innovation, and production activities.
