

The Regional Eastern Europe Fire Monitoring Center (REEFMC) in 2024

Selected regional outreach and policy activities in 2024 with best wishes to all partners for a safe 2025!

Participation in the establishment of the Global Fire Management Hub and Other International Activities

In 2024 REEFMC together with GFMC and other Regional Fire Management Resource Centers contributed to transition to “Fire Hub” under aegis of FAO with UNEP and UNDRR. Led IUFRO World Congress Session T4.20 “Managing Safety and Resilience of Forests affected by Armed Conflicts”, Stockholm, Sweden. Participated in the Plenary Meeting of the EC HORIZON EUROPE project FirEUrisk, Athens, Greece.

Outreach and cooperation of REEFMC at regional and national levels

Landscape Fire Monitoring under impact of war with support of ZOI Environment Network is carrying on. Joint research project ManUK in cooperation with the Global Fire Monitoring Center, Freiburg, Eberswalde University and Ukrainian National Forestry University, Lviv started under support of the Ministry of Agriculture and Food of Germany. Participated in the Plenary Meeting of the EC HORIZON EUROPE project FirEUrisk, Sardinia, Italy. Organized training for the Incident Commanders in the Chernobyl Exclusion Zone and silviculture measures and fuel treatment with the aim to protect from fires assets and citizens of the village Kosachivka, Chernihiv Oblast.
