### **DISCIPLINE DESCRIPTION**

A presentation is a way of informing, inspiring, and motivating other people. Whether your audience is a group of receptive colleagues, demanding clients, or strict regulators, your job is to influence the way they think and feel about your message. No matter how charismatic you may be, success depends on careful planning of your content and delivery.

The purpose of teaching is to prepare students for presentations, reports in front of the staff at various levels, training and teaching methods of designing websites in order to bring their ideas to the audience/consumer.

The objective of discipline is learning the methods for creating presentations and websites, acquaintance with the basics of building a report.

Student Learning Outcomes Upon completion of this course, students will be able to:

- Enhance basic competency in the areas of critical thinking, communication and interpersonal skills.
- Improve participants’ self-confidence in presentations.
- Prepare engaging introductions for data-focused presentations
- Create quick and effective presentation outlines that identify and highlight the main point
- Use essential tools such as space, color, contrast, text and animations within Excel and PowerPoint to create clear data visualizations
- Design presentations that enhance audience attention and comprehension
- Provide students with fundamental concepts related to presentation's and web sites design;
- Help students integrate these concepts and applications into their own planning, preparing, and delivering of presentations and web site in marketing;
- Develop students’ capabilities in developing, implementing, and evaluating presentations and web site in marketing.

## Criteria for assessing students' knowledge

According to the "Regulations on exams and tests in NULES of Ukraine", approved by the Rector of the University on 02/27/2019, the rating of a student in the academic work  $R_{HP}$  in relation to the study of a particular discipline is determined by the formula:

$$R_{HP} = \frac{0,7 \cdot (R_{3M}^{(1)} \cdot K_{3M}^{(1)})}{R_{ШТР}, K_{ДИС}} + R_{ДР}$$

$R_{3M}^{(1)}, \dots, R_{3M}^{(n)}$  – rating evaluations of content modules on a 100-point scale;

$K_{3M}^{(1)}, \dots, K_{3M}^{(n)}$  – the number of ECTS credits provided by the working curriculum for the relevant content module;

$K_{ДИС} = K_{3M}^{(1)}$  – the number of ECTS credits provided by the working curriculum for the discipline in the current semester;

$R_{ДР}$  – rating on additional work;

$R_{ШТР}$  – penalty rating.

The above formula can be simplified if we take  $K_{3M}^{(1)} = \dots = K_{3M}^{(n)}$ . Then it will look like:

$$R_{HP} = (0,7 \cdot R_{3M}^{(1)}) + R_{ДР} - R_{ШТР}.$$

The rating for additional work  $R_{ДР}$  is added to  $R_{HP}$  and cannot exceed 20 points. It is determined by the lecturer and is provided to students by the decision of the department for the implementation of works that are not provided by the curriculum, but contribute to improving the level of knowledge of students in the discipline

Penalty rating  $R_{ШТР}$  does not exceed 5 points and is deducted from  $R_{HP}$ . It is determined by the lecturer and is introduced by the decision of the department for students who have mastered the material of the content module late, did not follow the work schedule, missed classes and so on.

2. In accordance with this Regulation, the preparation and defense of the term project (paper) is assessed on a 100-point scale and then translated into assessments on a national scale and ECTS scale.

### **Assessment scale: national and ECTS**

National assessment	Rating of the applicant of higher education, points
Excellent	90-100
Good	74-89
Satisfactorily	60-73
Unsatisfactorily	0-59
