1. Aim, objectives, competences and expected learning outcomes of the discipline

Aim<u>- introducing students to the industry of Protected Cultivated.</u> Objectives <u>- Greenhouses, covered materials.</u>

Acquisition of competences:

Integral competence (IC): The ability to solve complex tasks and problems in the field of horticulture and viticulture during the implementation of professional activities or in the process of learning, which involves conducting research and implementing innovations, which are characterized by complexity and uncertainty of conditions.

General competences (GC): GC 6. Knowledge and understanding of the subject area and understanding of professional activity.

Special (professional) competences (SC): SC 2. The ability to use skills for growing planting material of fruit, berry crops and grapes, propagation of vegetable and garden plants in open and closed soil and mushrooms.

Expected Learning Outcomes (ELO):

ELO 10. Provide consulting and expertise on innovative technologies in fruit growing and viticulture.

ELO 14. Integrate and improve the production processes of growing vegetables and mushrooms in accordance with current requirements.

2. Programme and structure of the discipline for:

- full-time (part-time) form of study;
- reduced full-time (part-time) form of study

3	Greenhouses technologies	4		
4	Technologies' of vegetable crops in Greenhouses	36		
	Total 60			

4. Topics for self-study

N⁰ s/n	Topic title	Hours
1	Greenhouse's elements and constructions.	10
2	Covering materials	10
3	Greenhouses technologies	4
4	Technologies' of vegetable crops in Greenhouses	34
	Total	60

5. Tools for assessing expected learning outcomes: (select necessary or add)

- exam;
- credit;
- module tests;
- abstracts;
- graphic design works.
- presentation of laboratory and practical works;

6. Teaching methods:

(select necessary or add)

- verbal method (lecture, discussion, interview, etc.);
- practical method (laboratory, practical classes);
- visual method (illustration, demonstration);
- video method (remote, multimedia, web-based, etc.);
- self-study (completing assignments);
- individual research work;

7. Assessment methods:

(select necessary or add)

- exam;
- credit;
- oral or written assessment;
- module tests;
- essays and reports;
- presentation of practical works.

8. Distribution of points received by students

The assessment of students' knowledge and skills is conducted by means of a 100-point scale and is converted into national grades according to Table 1 of the current *Exam and Credit Regulations at NULES of Ukraine*.

Student's rating,	National grading of e	exams and credits	
points	exams	credits	
90-100	excellent		
74-89	good	pass	
60-73	satisfactorily		
0-59	unsatisfactorily	fail	

To determine a student's rating in the discipline **R**_{DIS} (up to 100 points), the received assessment rating **R**_A (up to 30 points) is added to the academic performance raiting **R**_{AP} (up to 70 points): **R**_{DIS} = **R**_{AP} + **R**_A.

9. Teaching and learning aids

- e-learning course of the discipline -
- https://elearn.nubip.edu.ua/course/view.php?id=1468;
- lectures and presentations (in electronic form);
- textbooks, manuals, tutorials;
- guidelines for studying a discipline by full-time and part-time students;
- internship programmes of the discipline (if included in the curriculum).

ACADEMIC DISCIPLINE DESCRIPTION

(up to 1000 symbols)

Structural elements, engineering systems, and typical projects of various types of greenhouses are studied. The gist of the discipline is to provide students with knowledge on the capacities of construction in order to reduce their costs to obtain the profit.

Acquisition of competences:

Integral competence (IC): The ability to solve complex tasks and problems in the field of horticulture and viticulture during the implementation of professional activities or in the process of learning, which involves conducting research and implementing innovations, which are characterized by complexity and uncertainty of conditions.

General competences (GC): GC 6. Knowledge and understanding of the subject area and understanding of professional activity.

Special (professional) competences (SC): SC 2. The ability to use skills for growing

planting material of fruit, berry crops and grapes, propagation of vegetable and garden

plants in open and closed soil and mushrooms.

Expected Learning Outcomes (ELO):

ELO 10. Provide consulting and expertise on innovative technologies in fruit growing and viticulture. ELO 14. Integrate and improve the production processes of growing vegetables and mushrooms in accordance with current requirements.

Торіс	Hours (lectures/laboratory, practical, seminars)	Learning outcomes	Tasks	Assessment
		8 semester		
		Module 1		
Topic 1 . Greenhouse's elements and constructions.	4\8\10	To know: any elements of Greenhouse's constructions	Completing tests.	10
Topic 2. Covering materials.	6\8\10		Writing essays. Self-study (including e-	20
Topic 3. Greenhouses technologies	4\4\4		learn).	20

ACADEMIC DISCIPLINE STRUCTURE

		Module 2	
Topic 4. Technologies' of vegetable crops in Greenhouses	16\10\36		20
		Completing tests. Self-study (including e- learn).	
Total for 1 st sen	nester		70
Examination			30
Total for the cou	urse	· ·	100

ASSESSMENT POLICY

Deadlines and exam retaking policy:	<i>EXAMPLE</i> Works that are submitted late without valid reasons will be assessed with a lower grade. Module tests may be retaken with the permission of the lecturer if there are valid reasons (e.g. a sick leave).		
Academic integrity policy: EXAMPLE Cheating during tests and exams is prohibited (including using mobile devices). Term papers and essays must have correct references to the literature used			
Attendance policy:	<i>EXAMPLE</i> Attendance is compulsory. For good reasons (e.g. illness, international internship), training can take place individually (online by the faculty dean's consent)		

SCALE FOR ASSESSING STUDENTS 'KNOWLEDGE AND SKILLS

Student's rating,	National grading of exams and credits			
points	exams	credits		
90-100	excellent	pass		
74-89	good	-		
60-73	satisfactorily			
0-59	unsatisfactorily	fail
