

Services of the laboratory of chemical analysis of fodder of the Department of Animal Nutrition and Feed Technology of the National University of Life and Environmental Sciences of Ukraine

№	Service* (service package)
1.	Package "Chemical composition of feed" (water + dry matter + crude protein + crude fat + crude fiber + crude ash + FNS)
2.	Package "Chemical composition of feed + structure" (water + dry matter + crude protein + crude fat + crude fiber + FNS + NDF + ADF + crude ash)
3.	Determination of mass fraction of moisture
4.	Determination of the mass fraction of raw ash
5.	Determination of mass fraction of crude protein
6.	Mass fraction of protein bound to NDF and ADF
7.	Determination of mass fraction of crude fat
8.	Determination of the mass fraction of crude fiber
9.	Determination of the mass fraction of neutral detergent fiber (NDF)
10.	Determination of the mass fraction of acid-detergent fiber (ADF)
11.	Determination of the mass fraction of lignin
12.	Mass fraction of starch
13.	Mass fraction of calcium
14.	Mass fraction of phosphorus
15.	Mass fraction of organic acids (acetic+propionic+butyric)
16.	Active acidity of the environment (pH)

* For order volumes of more than 100 samples, it is possible to form service packages according to the customer's needs at prices lower than the sum of individual services (phone number: +380505028019, Mykhailo)
