COURSE DESCRIPTION

The educational component "**Project management**" is compulsory. The discipline is aimed at teaching the students project management in particular to make them possess skills of using the acquired knowledge for the effective implementation of the project solutions in the practical activities of the enterprise. The concepts of "project" is considered as an important part of our daily lives, whereas the modern environment is considered as a world of projects that must be implemented to achieve the goal in a stipulated period of time and within available resources. The students understand that to obtain the desired result, projects require constant management, which is the purposeful coordination of the necessary actions to achieve the goals. In the process of studying the discipline students learn to determine the place of the project at the enterprise, identify the most common approaches to the formation of the structure of the project life cycle.
