Heroiv Oborony St, 15
03041, Kyiv
Ukraine

To whom it may concern,

Hereby, we would like to acknowledge an initiated cooperation process between the Wageningen University and Research (WUR) and the National University of Life and Environmental Sciences of Ukraine.

Within this cooperation broad teams of researchers and trainers are currently exploring opportunities for joint initiatives in the field of research and education in Life Sciences, including sustainable agriculture, animal sciences, environmental sciences and water-food nexus and climate. The initiatives are oriented towards utilization of opportunities within EU programmes such as Horizon Europe and other relevant national and international programmes.

In 2021 a knowledge exchange expert workshop is planned aiming to formulate further cooperation initiatives in specific fields of expertise.

The cooperation is supported by the Such Embassy in Kiev, and the Agricultural Councillor.

Sincerely,

Dr. Vanya Simeonova van der Grift
