

Webinar on CBVET call within EU Erasmus+ Programme for VET institutions was held just recently.

More than 300 representatives of VET institutions and organizations joined the webinar and online broadcast of the event.

One of the speakers of the webinar was *Olena Shelimanova*, Associate professor, National University of Life and Environmental Sciences of Ukraine and national coordinator of the CBVET project «VET partnership for Green and Smart Electricity in Building». She was highlighted the purpose and main tasks of the Project and shared the experience of cooperation with international partners at the initial stage of project implementation.
