

Work is being finalized on the tasks of Project VET4GSEB, which aims to provide national vocational education providers with adapted solutions, training materials, tools and recommendations that will allow them to update and improve their practices and training programs to meet the needs of the labor market for adequate skills and competencies in the field of construction and RES.

In October, a final meeting was held (in an online format), which was attended by all members of the Consortium.

The main event of the last period was the holding of national trainings. The Project participants undertook to train 78 trainers from 6 countries. As announced at the meeting, these obligations were exceeded: 240 people took part in the national trainings, of which 156 successfully completed the training and received certificates. The best indicator is for the representatives of Ukraine: 67 certified trainers.

How did the national trainings go?

Ukraine:

- Enrolled: 95**
- Successfully completed: 67**
- Survey completed by: 16**
