ОПИС ДИСЦИПЛІНИ

(до 1000 друкованих знаків)

The course is focused on new economic thinking, has a complex generalizing character and combines through the prism of management activities into one whole the knowledge gained by students in the process of studying such disciplines: finance, budget system, financial accounting, economic analysis, statistics.

The discipline «Tax system» contributes to students' acquisition of knowledge and practical skills in tax administration and preparation of tax reports, which are necessary for modern specialists to manage in the field of taxation. Mastering the course knowledge contributes to a better understanding of the functional aspects of the activities of tax authorities and the motives of taxpayers' behavior, gaining experience and understanding of the main methods of taxation. The level of knowledge in this discipline determines the professional competence of the student to practice.
